

Prague, 12th of March, 2008

Dear Prof. RNDr.Pavel Exner, DrSc.,

On behalf of the Czech Tourist Board - CzechTourism we would like to inform you about our intention to actively support the bidding process of international congresses and conferences that the Czech Republic could possibly host. For this reason we are taking the opportunity to address you.

In the last years the Czech Republic and Prague have won excellent references when successfully hosting many prestigious congresses that proved quality of services of our destination.

We are convinced that upon our already eminent mutual co-operation, the Czech Republic can win the hosting of the International Congress on Mathematical Physics in the year 2009.

Thank you,

Ing. Rostislav Vondruska
Director of CzechTourism
